

EV3 Rent-to-Own Program

World Robotic Olympiad wants to make starting a new team easier for organizations. The EV3 Rental Program was designed to enable new teams to try out the program while raising funds to purchase their own robot and equipment. Semia USA offers a 3-month rental period where teams can secure a robot with a valid credit card. During this period new teams can apply for grants, look for sponsors or raise money to purchase their own equipment. At the end of the 3-month trial period, the team may opt to purchase the rental and the card holder will be charge for an additional 9 months until the balance of the equipment is paid off. At the end of the 12 months the team will now own the equipment.
