

Team Sponsorship

World Robotic Olympiad of Massachusetts and Connecticut invites you to become a team sponsor for a robotic team or club in the Massachusetts or Connecticut. The primary source of funding for WRO is from sponsors, such as yourself. Our organization receives no governmental funds and is run entirely by volunteers. We have experienced amazing growth in our 5 years in the USA and desperately require continual support from our community to keep this valuable event running.

WRO USA is a national member of the World Robot Olympiad, an international robot competition that brings together young people from all over the world to develop their creativity, design and problem-solving skills through challenging & educational robotic competitions and activities.

Your sponsorship will help assure the continued success of the WRO in the USA - and allow robotic teams and clubs purchase the necessary robotic kits to participate in this very worth wild venture. Our robotic teams and clubs are required to purchase either the LEGO® MINDSTORMS® Set or LEGO® WeDo 2.0 set to compete.

Teams of 2 or 3 work together with a coach to perform new tasks each year. Teams create, design and build a robot model that is capable to perform a new theme challenge each year. Your support will go directly to supporting STEM education outside of the classroom and bring the love of learning to the next generation of STEM professionals.

The following levels of team sponsorship are as follows:

\$1,000 Platinum Level

- Purchases 1 LEGO® MINDSTORMS® Education EV3 Core Set
